3. Device Name:

Patient Examination Gloves

4. Common Name:

Powder Free Nitrile Examination Gloves (Blue) (CFR 880.6250)

5. Classification:

6. Predicate Device:

The Powder Free Nitrile Examination Gloves is substantially equivalent to legally market K051333 Nitrile Patient Examination Gloves, class I (21CFR 880.6250), product code LZA that meet all the requirements of ASTM D 6319-05 Standard Specification for Nitrile Examination Gloves for Medical Application.

7. Device Description: Powder Free Nitrile Examination Gloves (Blue), non-sterile.

8. Intended Use of the Device:

This glove is disposable and intended for medical purpose that is worn on the examiner's hand to prevent contamination between patient and examiner.

9. Technological Characteristics of Device:

The Powder Free Nitrile Examination Gloves characteristics are summarized below as

compared to ASTM requirements and to predicate devices:

CHADACTEDICG	and to predicate dev	
CHARACTERICS	STANDARDS	DEVICE PERFORMANCE
Dimensions	ASTM D 6319-00a(2005)	Meets
Physical Properties	ASTM D 6319-00a(2005)	Meets
Freedom from Holes	ASTM D 6319-00a(2005)	Meets
	ASTM D 5151-06	Meets AQL 1.5
Powder Free Residual	ASTM 6124-06	Less than 2 mg per glove
Biocompatibility	Consumer Product Safety Commission, Title	Passes
Primary Skin Irritation	16, Chapter II, Part 1500.41& 1500:3(C)(4)	1 25505
Test in Rabbits	, , , , , , , , , , , , , , , , , , , ,	
Biocompatibility	ISO 10993-10: 2002(E), Dermal Sensitiztion	Passes
Guinea Pig	Assay-Closed Patch Test	
Sensitization Test		

10. Performance Data

Are summarized above

11. Clinical Data:

Not required

12. Conclusion:

The Powder Free Nitrile Examination Gloves (Blue) base on the nonclinical tests performed, the Powder-Free Nitrile Examination Gloves is as safe, as effective and performs at least as safely and effectively as the legally marketed predicate device identified or legally marketed Nitrile Patient Examination Gloves, Class I

(21CFR 880.6250), product code LZA.

Re: K102846

Trade/Device Name: Powder-Free Nitrile Examination Gloves (Blue)

Regulation Number: 21 CFR 880.6250

Regulation Name: Patient Examination Gloves

Regulatory Class: 1 Product Code: LZA Dated: February 7, 2011 Received: February 11, 2011

Dear Mr. Hon:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration. Please note: CDRH does not evaluate information related to contract liability warranties. We remind you, however, that device labeling must be truthful and not misleading.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); medical device reporting (reporting of medical device-related adverse events) (21 CFR 803); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please go to http://www.fda.gov/AboutFDA/CentersOffices/CDRH/CDRHOffices/ucm115809.htm for the Center for Devices and Radiological Health's (CDRH's) Office of Compliance. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21 CFR Part 807.97). For questions regarding the reporting of adverse events under the MDR regulation (21 CFR Part 803), please go to http://www.fda.gov/MedicalDevices/Safety/Reporta Problem/default.htm for the CDRH's Office of Surveillance and Biometrics/Division of Postmarket Surveillance.

You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 796-7100 or at its Internet address http://www.fda.gov/MedicalDevices/ResourcesforYou/Industry/default.htm.

Sincerely yours

Anthony D. Watson, B.S., M.S., M.B.A.
